

List of publications

1975 until 2011

Prof. Dr. med. Eugen Faist

Content

1. Original Papers
 - 1a. Journals (Peer review)
 - 1b. Review articles
2. Editorships, book chapters, congress proceedings
 - 2a. Editorships - books and journals
 - 2b. Book chapters, congress proceedings
3. Abstracts
4. Lectureships (Peer review and by invitation)

1. Original Papers

1a. Journals (Peer review)

Faist E, Baue AE, Dittmer H, Heberer G: Multiple organ failure in polytrauma patients. **J Trauma** 23,9: 775-787, 1983

Faist E, Kuppert TS, Baker CC, Chaudry IH, Dayer AE, Baue AE: Depression of cellular immunity after major injury: Its association with posttraumatic complications and its reversal with immunomodulation. **Arch Surg** 121,9: 1000-1005, 1986.

Baker CC, Yamada A, **Faist E**, Kupper TS: Interleukin-1 and T-cell function following injury. **J Burn Care Rehabil** 8,6: 503-508, 1987.

Faist E, Mewes A, Baker CC, Strasser TH, Alkan S, Rieber P, Heberer G: Prostaglandin E2 (PGE2) dependent suppression of interleukin-2 (IL-2) production in patients with major trauma. **J Trauma** 27,8: 837-848, 1987.

Faist E, Riedel A, Bolla K: Influence of thymopentin on postsurgical immune deficiency. A clinical pilot study. **Int J Clin Pharm Res** 7: 83-87, 1987.

Faist E, Mewes A, Strasser T, Walz A, Alkan S, Baker CC, Ertel W, Heberer G: Alteration of monocyte function following major injury. **Arch Surg** 123,3: 287-292, 1988.

Faist E, Ertel W, Salmen B, Weiler A, Ressel C, Bolla K, Heberer G: The immune-enhancing effect of perioperative thymopentin administration in elderly patients undergoing major surgery. **Arch Surg** 123,12:1449-1453, 1988.

Faist E, Ertel W, Baker CC, et al: Terminal B-cell maturation and immunoglobulin (Ig) synthesis in vitro in patients with major injury. **J Trauma** 29,1: 2-9, 1989.

Ertel W, **Faist E**, Salmen B, Huber P, Heberer G: Influence of cyclooxygenase inhibition on interleukin-2 receptor (IL-2R) expression after major trauma. **Surg Res Comm** 5: 17-23, 1989.

Ertel W, **Faist E**, Nestle C, Schuebel I, Storck M, Schildberg FW: Dynamics of immunoglobulin synthesis after major trauma. **Arch Surg** 124,12: 1437-1442, 1989.

Faist E, Ertel W, Cohnert T, et al: Immunoprotective effects of cyclooxygenase inhibition in patients with major surgical trauma. **J Trauma** 30(1): 8-17, 1990.

Ertel W, **Faist E**, Nestle C, Storck M, Schildberg FW: Changes in B-lymphocyte proliferative response following major trauma: The influence of recombinant lymphokines. **Surg Res Comm** 8: 253-261, 1990.

Ertel W, **Faist E**, Nestle C, Hueltnner L, Storck M, Schildberg FW: Kinetics of interleukin-2 and interleukin-6 synthesis following major mechanical trauma. **J Surg Res.** 48,6: 622-628, 1990.

Faist E, Storck M, Ertel W, Schildberg FW: Immunologic aspects of shock, trauma, and sepsis. **Infect Med** 8: 43-48, 1991.

Faist E, Markewitz A, Fuchs D, Lang S, Zarius S, Schildberg FW, Wachter H, Reichart B: Immunomodulatory therapy with thymopentin (TP-5) and indomethacin: Successful restoration of interleukin-2 (IL-2) synthesis in patients undergoing major surgery. **Ann Surg** 214,3: 264-275, 1991.

Markewitz A, **Faist E**, Niesel T, Lang S, Weinhold C, Reichart B: Changes in lymphocyte subsets and mitogen responsiveness following open heart surgery and possible therapeutic approaches. **Thorac. Cardiovasc Surgeon** 1992, 40,1: 14-18, 1992.

Faist E, Storck M, Hueltnner L, Redl H, Ertel W, Walz A, Schildberg FW: Functional analysis of monocyte (M ϕ) activity via synthesis patterns of interleukin 1,6,8 (IL-1, IL-6, IL-8) and neopterin in surgical intensive care patients. **Surgery**, 112,3: 562-572, 1992.

Markewitz A, **Faist E**, Lang S, Endres S, Fuchs D, Reichart B: Successful restoration of cell-mediated immune response following cardiopulmonary bypass by immunomodulation. **J Thoracic Cardiovasc Surg**; 105,1: 15-24, 1993.

Faist E, Schinkel C, Zimmer S, Kremer JP, Alkan S, Rordorf C, V. Donnersmarck H, Schildberg FW: The influence of major trauma on the regulatory levels of interleukin-1 (IL-1) and IL-2 in human mononuclear leukocytes. **Zentralbl Chir**, 118,7: 420-431, 1993.

Faist E, Schinkel C, Zimmer S, Kremer J.P, Doermer P: Inadequate interleukin-2 (IL-2) synthesis and IL-2 mRNA expression following human thermal and mechanical trauma is due to defective transmembrane signalling. **J Trauma**, 34,6: 846-853, 1993.

Markewitz A, **Faist E**, Lang S, Endres S, Hueltnner L, Reichart B: Regulation of acute phase response after cardiopulmonary bypass by immunomodulation. **Ann Thorac Surg** 55,2: 389-394, 1993.

Ertel W, Krombach F, Kremer JP, Jarrar D, Thiele V, Eymann J, Münzing S, **Faist E**, Messmer K, Schildberg FW: Mechanisms of cytokine cascade activation in patients with sepsis: Normal cytokine transcription despite reduced CD14 receptor expression. **Surgery** 114,2:243-250, 1993.

Ertel W, Jarrar D, Jochum M, Thiele V, Kenney J, **Faist E**, Schildberg FW: Enhanced release of elastase is not concomitant with increased secretion of granulocyte-activating cytokines in whole blood from patients with sepsis. **Arch Surg**, 129,1:90-97, 1994.

Faist E, Hartl WH, Baue AE: Immunmechanistik der posttraumatischen Hyperinflammation und Sepsis **Immun Infekt**; 22(6):203-13, 1994

Schinkel C, **Faist E**, Zimmer S, Walz A, Rose R, Hoecherl E, Herndon D, Schildberg FW: Kinetics and predictive roles of circulating adhesion molecules and chemokines following mechanical and burn trauma. **Current Opinion in Surgical Infections** 3,1:8, 1995.

Hoffmann JN, Hartl WH, Deppisch R, **Faist E**, Jochum M, Inthorn D: Hemofiltration in human sepsis: Evidence for elimination of immunomodulatory substances. **Contrib Nephrol** 116:76-79, 1995.

Hoffmann JN, **Faist E**, Deppisch R, Hartl WH, Inthorn D: Hemofiltration in human sepsis: Evidence for elimination of immunomodulatory substances. **Kidney International**, 48,5:1563-1570, 1995.

Schinkel C, Zimmer S, Kremer JP, Walz A, Rordorf-Adam C, Henckel von Donnersmarck G, **Faist E**: Comparative analysis of transcription and protein release of the inflammatory cytokines interleukin-1 beta (IL-1 β) and interleukin-8 (IL-8) following major burn and mechanical trauma. **Shock**, 4;4:241-246, 1995.

Kim C, Schinkel C, Fuchs D, Stadler J, Walz A, Zedler S, Henckel von Donnersmarck G, **Faist E**: Interleukin-13 effectively down-regulates the monocyte inflammatory potential during traumatic stress. **Arch Surg** 130;12:1330-1336, 1995.

Hoffmann JN, **Faist E**, Deppisch R, Hartl WH, Inthorn D: Hemofiltration in human sepsis: evidence for elimination of immunomodulatory substances. **Contrib Nephrol**;116:76-9, 1995

Hoffmann JN, **Faist E**, Deppisch R, Hartl WH, Inthorn D: Hemofiltration in human sepsis: Evidence for elimination of immunomodulatory substances. **Contrib Nephrol** 116:76-79, 1995.

Markewitz A, **Faist E**, Lang S, Hültner L, Weinhold C, Reichart B: An imbalance in T-helper cell subsets alters immune response after cardiac surgery. **Eur J Cardiothorac Surg** 10;1:61-67, 1996.

Schinkel C, **Faist E**, Zimmer S, Piltz S, Walz A, Rose R, Höcherl E, Herndon D, Schildberg FW: Kinetics of circulating adhesion molecules and chemokines after mechanical trauma and burns. **Eur J Surgery** 162;10:763-768, 1996.

Hoffmann JN, Hartl WH, Deppisch R, **Faist E**, Jochum M, Inthorn D (1996): Effect of hemofiltration on hemodynamics and systemic concentrations of anaphylatoxins and cytokines in human sepsis. **Intensive Care Med** 22;12:1360-1367, 1996.

Lo CJ, Cryer HG, Maier RV, **Faist E**, West MA (1996): Prostaglandin E-2 production by endotoxin-stimulated alveolar macrophages is regulated by phospholipase C pathways. **J Trauma Inj Infect Crit Care** 40;4:557-563, 1996.

Faist E: The mechanisms of host defense dysfunction following shock and trauma. **Curr Top Microbiol Immunol** 216:259-274, 1996.

Faist E, Schinkel C, Zimmer S: Update on the mechanisms of immune suppression of injury and immune modulation. **World J Surg** 20;4:454-459, 1996.

Zedler S, **Faist E**, Ostermeier B, v. Donnersmarck GH, Schildberg FW: Postburn constitutional changes in T-cell reactivity occur in CD8+ rather than in CD4+ cells. **J Trauma** 42,5:872-880, 1997.

Hoffmann JN, Hartl WH, **Faist E**, Jochum M, Inthorn D: Tumor necrosis factor measurement and use of different anticoagulants: Possible interferences in plasma samples and supernatants from endotoxin-stimulated monocytes. **Inflamm Res** 46;9:342-347, 1997.

Schinkel C, Zimmer S, Durda P.J, Herndon D.N, **Faist E**: Kinetics of Soluble Interleukin-2 Receptor (sIL-2R) following mechanical and burn trauma, **J Burn Care Rehabil**, 18:210-213, 1997.

Faist E, Wichmann M, Kim C : Immunosuppression and immunomodulation in surgical patients. **Current Opinion in Critical Care**, Vol. 3,4:293-298, 1997.

Heiss MM, Fraunberger P, Delanoff C, Stets R, Allgayer H, Ströhlein MA, Tarabichi A, **Faist E**, Jauch K-W, Schildberg FW: Modulation of immune response by blood transfusion: Evidence for a differential effect of allogeneic and autologous blood in colorectal cancer surgery. **Shock**, 8;6:402-408, 1997.

Hoffmann H, Markewitz A, Kreuzer E, Reichert K, Jochum M, **Faist E**: Pentoxifylline decreases the incidence of multiple organ failure in patients after major cardio-thoracic surgery. **Shock**, 9,4:235-240, 1998.

Schinkel C, Sendtner R, Zimmer S, **Faist E**: Functional analysis of monocyte subsets in surgical sepsis. **J Trauma**, 44,5:743-749, 1998.

Baue AE, Durham R, **Faist E**: Systemic inflammatory response syndrome (SIRS), multiple organ dysfunction syndrome (MODS), multiple organ failure (MOF): Are we winning the battle ? **Shock**, 10,2:79-89, 1998.

Faist E, Kim C: Therapeutic immunomodulatory approaches for the control of systemic inflammatory response syndrome and the prevention of sepsis. **New Horizons**, Vol. 6,2:97-102, 1998.

Zedler S, Bone RC, Baue AE, H.v. Donnersmarck G, **Faist E**: T-cell reactivity and its predictive role in immunosuppression after burns. **Crit Care Med**, Vol 27,1:66-72, 1999.

Wang H, Bloom O, Zhang M, Ombrellino M, Che J, Vishnubhakat JM, Frazier A, Ivanova S, Borovikova L, Manogue K, **Faist E**, Abraham E, Andersson J, Andersson U, Molina PE, Abumrad NN, Sama A, Tracey KJ (1999): Identification of HMG-1 as a late mediator of endotoxin lethality in mice. **Science** Vol 9;285:248-251, 1999.

Schinkel C, Sendtner R, Zimmer S, Walz A, Hültner L, **Faist E**: Evaluation of Fc-receptor positive and negative monocyte subsets in sepsis. **Shock**, Vol 11;4:229-234, 1999.

Hoffmann JN, Werdan K, Hartl WH, Jochum M, **Faist E**, Inthorn D: Hemofiltrate from patients with severe sepsis and depressed left ventricular contractility contains cardiotoxic compounds. **Shock** 12;3:174-180, 1999.

Hoffman JN, **Faist E**: Coagulation inhibitor replacement during sepsis: useless? **Crit Care Med** Sep;28 (9):74-76, 2000.

Schinkel C, Licht K., Zedler S, Schinkel S, Fraunberger P, Fuchs D, Neugebauer E, Kreuzer E, **Faist E**: Interferon- γ Modifies Cytokine Release In Vitro by Monocytes from Surgical Patients. **The Journal of Trauma** 50;2, 321-327, 2001

Stangl M, Zerkaulen T, Theodorakis J, Illner W, Schneeberger H, Land W, **Faist E**: Influence of brain death on cytokine release in organ donors and renal transplants. **Transplant Proc.** Feb-Mar; 33 (1-2):1284-1285, 2001.

Hoffmann JN, **Faist E**: Removal of Mediators by Continuous Hemofiltration in Septic Patients. **World J. Surg.** 25, 651-659, 2001

Faist E: Intracellular Aspects of the Immunoinflammatory Response to Trauma and Sepsis. **The Japanese Journal of Surgical Metabolism and Nutrition** 35;3: 114-115, 2001.

Vincent JL, Angus D, Annane D, Bernard G, **Faist E**, Giroir B, Reinhardt K: Clinical expert round table discussion (session 5) at the Margaux Conference on Critical Illness: Outcome of clinical trials in sepsis: Lessons learned. **Crit Care Med** 29;7:136-137, 2001.

Bernard G, Artigas A, Dellinger P, Esmon C, **Faist E**, Faust SN, Discher CJ, Fumagalli R, Grinnell BW, Sprung C: Clinical expert round table discussion (Session 3) at the Margaux Conference on Critical Illness: the role of activated protein C in severe sepsis. **Crit Care Med** 27;7:75-77, 2001.

Schinkel C, Licht K, Zedler S, Schinkel S, Fuchs D, **Faist E**: Perioperative treatment with human recombinant interferon-gamma: a randomized double-blind clinical trial. **Shock** Nov;16(5):329-333, 2001

Schinkel C, Zedler S, **Faist E**, Schildberg, FW: Die klinische Relevanz biochemischer Parameter für die Diagnose, Prognose und Therapie polytraumatisierter Patienten. **Intensiv Medizin und Notfallmedizin, German Interdisciplinary Journal of Intensive Care Medicine** Mai; 39:327-333, 2002.

Angele MK, **Faist E**: Clinical Review: Immunodepression in the surgical patient and increased susceptibility to infection. **Critical Care** August; Vol 6, No 4, 298-305, 2002.

Aasen AO, Barie PS, **Faist E**, Ford HR, Fry DE, Hau T: Panel discussion: current issues in the prevention and management of surgical site infection--part 1. **Surg Infect** (Larchmt); 3 Suppl 1:S1-7, 2002

Aasen AO, Barie PS, **Faist E**, Ford HR, Fry DE, Hau T: Panel discussion: current issues in the prevention and management of surgical site infection--part 2. **Surg Infect** (Larchmt); 3 Suppl 1:S99-102, 2002

Hartung T, Von Aulock S, Schneider C, **Faist E**: How to leverage an endogenous immune defense mechanism: the example of granulocyte colony-stimulating factor. **Crit Care Med** Jan;31 (1 Suppl):S65-75, 2003

Licht AK, Schinkel C, Zedler S, Schinkel S, **Faist E**: Effects of perioperative recombinant human IFN-gamma (rHuIFN-gamma) application in vivo on T cell response. **J Interferon Cytokine Res**; 23(3):149-54, 2003

Marshall JC, Vincent JL, Fink MP, Cook DJ, Rubenfeld G, Foster D, Fisher CJ Jr, **Faist E**, Reinhart K: Measures, markers, and mediators: toward a staging system for clinical sepsis. A report of the Fifth Toronto Sepsis Roundtable, Toronto, Ontario, Canada, October 25-26, 2000. **Crit Care Med**; 31(5):1560-7, 2003

Schneider C, von Aulock S, Zedler S, Schinkel C, Hartung T, **Faist E**: Perioperative recombinant human granulocyte colony-stimulating factor (Filgrastim) treatment prevents immunoinflammatory dysfunction associated with major surgery. **Ann. Surg.** 239:75-81, 2004.

Eisenmenger SJ, Wichmann MW, Angele P, **Faist E**, Hatz R, Chaudry ICH, Jauch KW, Angele MK: Differences in the expression of LPS-receptors are not responsible for the sex-specific immune response after trauma and hemorrhagic shock. **Cellular Immunology** 230:17-22, 2004

Solomkin JS, Bjornson HS, Cainzos M, Dellinger EP, Dominioni L, Eidus R, **Faist E**, Leaper D, Lee JT, Lipsett PA, Napolitano L, Nelson CL, Sawyer RG, Weigelt J, Wilson SE: A consensus statement on empiric therapy for suspected gram-positive infections in surgical patients. **Am J Surg**; 187(1):134-45, 2004

Angele, MK, Loehe, F., **Faist E**: Immunomodulation during sepsis in organ transplanted children. **Minerva Pediatr.** October 57: 259-68, 2005

Frantz MC, Prix NJ, Wichmann MW, van den Engel NK, Hernandez-Richter T, Faist E, Chaudry IH, Jauch KW, Angele MK: Dehydroepiandrosterone restores depressed peripheral blood mononuclear cell function following major abdominal surgery via the estrogen receptors. **Crit Care Med**; 33(8):1779-86, 2005

Faist E: Pathogenese der immunoinflammatorischen Abläufe in der Sepsis: Mechanismen und Monitoring. **Viszeralchirurgie**; 41:6-10, 2006

Zedler S, **Faist E**: The impact of endogenous triggers on trauma-associated inflammation. **Curr Opin Crit Care**; 12(6):595-601, 2006

Brechenmacher SA, Van den Engel NK, **Faist E**, Angele P, Jauch KW, Angele MK: Einfluss von chirurgischem Trauma auf die Expression von Steroidhormonrezeptoren in PBMCs bei Patienten. **Chirurgisches Forum** 2005, Volume 34, Springer Verlag Berlin-Heidelberg, p. 401-403, 2006

Schinkel C, Gaertner A, Zaspel J, Zedler S, **Faist E**, Schuermann M: Inflammatory Mediators are Altered in the Acute Phase of Posttraumatic Complex Regional Pain Syndrome. **Clin J Pain**; 22:235-239, 2006

Majetschak M, Zedler S, Hostmann A, Sorell LT, Patel MB, Novar LT, Kraft R, Habib F, de Moya MA, Ertel W, **Faist E**, Schade U: Systemic Ubiquitin Release After Blunt Trauma and Burns: Association with Injury Severity, Posttraumatic Complications, and Survival. **J Trauma**; 64:586-598, 2008

Walz CR, Zedler S, Schneider CP, Albertsmeier M, Loehe F, Bruns CJ, **Faist E**, Chaudry IH, Angele MK: The potential role of T-cells and their interaction with antigen-presenting cells in mediating immunosuppression following trauma-hemorrhage. **Innate Immunity** 15(4):233-241, 2009

Kirchhoff C, Biberthaler P, Mutschler WE, **Faist E**, Jochum M, Zedler S: Early down-regulation of the pro-inflammatory potential of monocytes is correlated to organ dysfunction in patients after severe multiple injury: a cohort study. **Critical Care**; 13:R88, p. 1-11, 2009

Albertsmeier M, **Faist E**, Thasler W, Brandenburg F, Jauch KW: Konzept und Evaluierung der Münchner Präfarztkurse. **Chirurg**; 80(2):144-8, 2009
